### Why should I take Aerial Lift?

This course is for employees who operate an aerial lift. This course will cover proper vehicle operation, the hazards of operating the vehicle in the workplace, and the requirements of the OSHA/MIOSHA standard Part 32 for Aerial Work Platforms. A boom support and scissor lift will be utilized for this training.

### What will you learn in this training?

- Accident Prevention
- Required Safety Procedures
- Resources
- Hazard Recognition
- The Importance of Maintenance
- Pre-use Inspection
- Site Inspection
- Ground and Platform Controls Use
- The Importance of a Level Platform

### Certificate

GLSTC will provide Training Certification/Operator Permit Cards to the employer. Employer is responsible for completion of the Operator Permit Cards. Operator Permit cards are valid for three years.

### This class awards .4 CEU credit hours.

*Students should bring their harness and restraint lanyard to class, if they have one.*
