Why should I take Construction Maintenance Refresher?

This class is for students who took Construction Maintenance Initial one year ago and are eligible for the abbreviated refresher class. This class is a must for employees working on construction sites, performing construction activities, installing or servicing new equipment within a manufacturing area, performing maintenance activities or repairs and/or using tools in the performance of work.

What will you learn in this training?

- Safety Tools
- Personal Protective Equipment (PPE)
- Material Handling
- Hazard Communication
- Health Hazards
- Emergency Response
- Driver Safety
- Elevated Work
- Lockout/Tagout
- Electrical Safety

This course includes an orientation to the Dow Chemical Company.
