GLSTC is an enclosed public space, requiring a face covering.

Great Lakes Safety Training Center recently sent a communication following Governor Whitmer’s most recent “Stay Home, Stay Safe” executive order issued on April 24, 2020 noting that we are considered “an enclosed public space” and requesting all visitors follow this order while in our facility.

To clarify the order and what Great Lakes Safety Training Center’s expectations are for those entering our building, we are sending you the following FAQ’s.

1. Is a face covering required to enter the building?
   **YES.** Great Lakes Safety Training Center is an enclosed public space and as such, all visitors who are able to medically tolerate a face covering are required to wear a face covering when they cannot maintain 6’ of social distancing. This will normally occur when entering and exiting the building, checking in and out at the front desk, walking to and from the classroom, and during breaks. During those times all visitors are expected to wear a face covering.

2. Do I have to wear a face covering in the classroom during instruction?
   **NO.** Our classrooms are set up for groups of 9 or less students, each at individual tables that do maintain a 6’ distance; therefore face coverings are not required while in the classroom during instruction. Please maintain that 6’ social distance at all times between students and also between yourself and the instructor while in the classroom. You are welcome to wear a face covering in the classroom if you prefer, but it is not required.

3. Should I bring my own face covering?
   **YES.** Please wear your own face covering (mask, scarf, bandana, etc.) that covers your mouth and nose when entering the building and any time you are within the 6’ social distancing measure, particularly at times described above.

4. Is it acceptable to remove face coverings where it would be unsafe to keep in place or to be in compliance with safety requirements?
   **YES.** You should not wear a face covering if it impedes your vision; if you have a medical condition it would adversely affect, or if doing so would create an unsafe condition in which to execute a task.

5. Are there any other restrictions for entering Great Lakes Safety Training Center at this time?
   **YES.** If you are sick please do not enter the building. Call our office and we will reschedule your class.

Please do your part to help ensure the health and safety of all of our employees and students by following these guidelines.

Thank you.
