

# Site Access: Consumers Energy

Great Lakes Safety Training Center assists various sites with their Contractor Site Access. Each site has a different set of contractor requirements, which may depend on job, time on the site, and access types.

For Consumers Energy, each contractor is required to have a Background Check to gain access and work on site. Below is the information which is required and broke down for each job type. As always, Consumers Energy has the final say on all contractor access.

Classes	Class Expiration	Background	Class Cost	Background Cost
N/A	N/A	<b>GLSTC Level 3 Background</b>  B/G with Informed Consent and Disclosure form for all contractors  Valid for 7 years unless a person is not employed by that company for over 90 days during the seven years or there is a change of employer.	N/A	\$65 member \$75 non (pay up front)  <i>* Additional fees may apply for certain states and countries.</i>

GLSTC requests all backgrounds be submitted at least 14 business days prior to needing site entry to process. The average turn-around time is 3-5 business days for a standard US Background Check. All backgrounds must be submitted either by fax (989.837.6330) or email ([background@glstc.org](mailto:background@glstc.org)) fully completed in or proper processing.

Training must be registered for by the business day before the class. Class schedules are posted on our website and via our Learning Management System. You may also call or email ([enrollment@glstc.org](mailto:enrollment@glstc.org)) in order to register for classes. We suggest all background checks be completed before completing training.
