Why should I send my employees to this training?

This 4-hour course is specifically designed with the light industrial temporary worker in mind. Not only has the temporary worker industry has grown 125% since 1990, but there has also been a shift in the use of temporary workers in hazardous work. Based on these statistics, this training has been designed to offer consistent high-quality safety training for temporary workers.

Who should take this training?

New temporary workers or workers seeking temporary employment in the light industrial job industry.

What will you learn in this training?

- Hazard Communication
- Lockout/Tagout
- Machine Guarding
- Occupational Noise Exposure
- Electrical Hazards
- Personal Protective Equipment
- Ladder Safety
- Fall Prevention
- Rights of the Temporary Worker
- Other General Safety Awareness Topics

**Auxiliary aids, services and other reasonable accommodations are available, upon prior request, to individuals with disabilities.*
